*President*

Title

RULES AND REGULATIONS

- I. Rules and Regulations for the Government of Sewerage Utilities, adopted by the Public Service Commission of West Virginia, and now in effect, and all amendments thereto and modifications thereof hereafter made by said Commission.

(C) APPLICABILITY

Applicable within the entire territory served.

(C) AVAILABILITY OF SERVICE

Available for general domestic, commercial, industrial and sale for resale sewer service.

(C,I) FLAT RATE CHARGE (Customers with non-metered water supply)

Residential, including Chalets	\$ 83.84
Commercial -- Lodge and Motel	\$3,592.71
Commercial -- Herron Apartments	\$ 335.35

BILLING

The above rates and tariff may be billed either on a monthly or quarterly basis.

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

(C) TAP FEE

The following charge is to be made whenever the utility installs a new tap to serve an applicant.

A tap fee of \$300.00 will be charged to all customers who apply for service outside of a certificate proceeding before the Commission for each new tap to the system.

(I) Indicates increase

**(C) SURFACE OR GROUND WATER SURCHARGE**

An additional amount shall be charged where surface or ground water is introduced into the sanitary system where evidence of a violation exists. Surcharge formula to be applied in cases where surface drainage is connected to the utility's sewer system.

**APPLICABILITY**

Whenever the utility has discovered that a customer's roof drain, downspout, storm sewer or similar facilities conducting surface water have been connected to the utility's sewer system, and such customer has failed to take appropriate action, within thirty (30) days of receipt of a demand by the utility in accordance with the Rules of the Public Service Commission, to eliminate such connection, a surcharge will be imposed upon the customer calculated on the basis of the following formula:

$$S = A \times R \times .0006233 \times C$$

S = The surcharge in dollars

A = The area under roof and/or the area of any other water collection surface connected to the sanitary sewer, in square feet.

R = The measured monthly rainfall, in inches.

.0006233 = A conversion factor to change inches of rain x square feet of surface to thousands of gallons of water.

C = The utility's approved rate per thousand gallons of metered water usage.

The utility shall not impose the surcharge unless and until the customer has been notified by certified mail, return receipt requested, or by hand delivery, that it has been established by smoke testing, dye testing, or on-site inspection that rain or surface water is being introduced into the sanitary sewer system at the customer's location, and that the customer has not acted within thirty (30) days from receipt of such notice to divert the water from the sanitary sewer system.

Said surcharge shall be calculated and imposed for each month that said condition continues to exist. Failure to pay the surcharge and/or correct the situation shall give rise to the possible termination of water service in accordance with the Rules of the Public Service Commission.
