PHASE 2 (Continued)

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

TAP FEE

The following charges are to be made whenever the Utility installs a new tap to serve an applicant:

A tap fee of \$100.00 will be charged to customers applying for service before construction is completed adjacent to the customer's premises in connection with a certificate proceeding before the Commission. This pre-construction tap fee will be invalid after the completion of construction adjacent to an applicant's premises that is associated with a certificate proceeding.

A tap fee of \$350.00, or *the actual cost of the connection* (solely determined by the Utility), whichever is greater, will be charged to all customers who apply for service outside a certificate proceeding before the Commission for each new tap to the system.

RETURNED CHECK CHARGE

A service charge of \$25.00 will be imposed upon any customer whose check for payment of charges is returned by the bank for any reason.

WATER DISCONNECT/RECONNECT FEES/ADMINISTRATIVE FEES

Water service will not be restored until all past due sewer bills have been paid in full and all accrued penalties plus a disconnection charge of \$25.00 have been paid.

There shall be a \$25.00 reconnection charge paid prior to restoration of water service which has been previously disconnected for any reason.

In the event that Utility staff or agents collect money at the customer's residence in order to stop disconnection, an administrative fee of \$25.00 shall be paid in addition to other charges to prevent disconnection.

PHASE 2 (Continued)INCREMENTAL COSTS

\$5.00 per 1,000 gallons

An amount not to exceed \$5.00 per 1,000 gallons is to be used when a bill reflects unusual consumption which can be attributed eligible leakage on the customer's side of the meter. This rate shall be applied to all such consumption above the customer's historical average usage. The Utility shall establish a non-discriminatory policy regarding this provision for leak adjustments.

EFT, ACH, CREDIT CARD AND DROP BOX PAYMENTS

A service charge will be imposed on EFT, ACH, Credit card or Drop Box payments. The amount shall be equal to the actual charges to the Utility from the financial institution for processing payment.

SECURITY DEPOSIT

As of the date of passage, the applicable provision of WV Code § 8-19-12a(a):

The municipality or governing body, but only one of them, may collect from all new applicants for service a deposit of \$50 or two twelfths of the average annual usage of the applicant's specific customer class, whichever is greater, to secure the payment of water service rates, fees and charges in the event they become delinquent as provided in the section. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent and the user's service is disconnected or terminated, no reconnection or reinstatement of service may be made by the municipality or governing body until another deposit equal to \$50 or a sum equal to two twelfths of the average usage for the applicant's specific customer class, whichever is greater, is remitted to the municipality or governing body. After twelve months of prompt payment history, the municipality or governing body shall return the deposit to the customer or credit the customer's account with interest at a rate as the Public Service Commission may prescribe:

PHASE 2 (Continued)SECURITY DEPOSIT (Continued)

Provided, That where the customer is a tenant, the municipality or governing body is not required to return the deposit until the time the tenant discontinues service with the municipality or governing body. Whenever any rates, fees, rentals, or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The municipality or governing body may, under reasonable rules promulgated by the Public Service Commission, shut off and discontinue water services to a delinquent user of water facilities ten days after the water services become delinquent regardless of whether the municipality or governing body utilizes the security deposit to satisfy any delinquent payments: *Provided further*, That nothing contained within the rules of the Public Service Commission shall be deemed to require any agents or employees of the municipality or governing body to accept payment at the customer's premises in lieu of discontinuing service for a delinquent bill.

As of the date of passage, the applicable provision of the PSC Water Rules, Rule 4.2.a.1.:

"...for a municipal sewer system only, the deposit shall not be more than either fifty dollars (\$50.00) or two-twelfths of the average annual usage of the applicant's specific customer class, whichever is greater..."

- (I) This tariff in accordance with the above cited statutory language and OSC sewer rates produces a security deposit of \$100.48 for residential customers.

- (I) Indicates increase
