OF

MORGANTOWN, WEST VIRGINIA

RATES, RULES AND REGULATIONS FOR FURNISHING

SEWERAGE AND SEWAGE DISPOSAL SERVICE

Monongalia County, West Virginia

Filed with THE PUBLIC SERVICE COMMISSION
of
WEST VIRGINIA

Issued October 23, 2014

Effective for all services rendered on or after October 10,
2014, except as otherwise provided herein

Issued by authority of an Order of the
Public Service Commission of West Virginia
in Case No. 14-1075-S-T dated
October 10, 2014.

Issued by SCL, PSD, LLC, a private utility

By 

Title

RULES AND REGULATIONS

I. Rules and Regulations for the Government of Sewerage Utilities, adopted by the Public Service Commission of West Virginia, and now in effect, and all amendments thereto and modifications thereof hereafter made by said Commission.

SCHEDULE I

APPLICABILITY

Applicable within the entire territory served.

AVAILABILITY OF SERVICE

Available for general domestic, commercial, industrial (except unusual industrial waste) and noncontract resale water service.

RATES (Customers with a metered water supply)

First	3,000 gallons used per month	\$15.00 per 1,000 gallons
Next	4,000 gallons used per month	\$12.00 per 1,000 gallons
Next	5,000 gallons used per month	\$11.00 per 1,000 gallons
Next	8,000 gallons used per month	\$10.00 per 1,000 gallons
All over	20,000 gallons used per month	\$9.00 per 1,000 gallons

MINIMUM CHARGE (All Customers)

Each customer shall pay a minimum charge of \$57.00

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent (10%) will be added to the net current amount unpaid. This delayed payment is not interest and is only to be collected only once for each bill where it is applicable.

TAP FEE

The following charge is to be made whenever the utility installs a new tap to serve an applicant.

A tap fee of \$350.00 will be charged to all customers who apply for service outside of a certificate proceeding before the Commission for each new tap to the system.

LEAK ADJUSTMENT

\$0.69 per 1,000 gallons is to be used when the bill reflects unusual consumption which can be attributed to eligible leakage on customer's side of the meter. This rate shall be applied to all such consumption above the customer's historical average usage.

SCHEDULE I (Continued)

RETURNED CHECK CHARGE

A service charge equal to the actual bank fee assessed to the utility, not to exceed \$25.00, will be imposed upon any customer whose check for payment of charges is returned by his or her bank due to insufficient funds.

SECURITY DEPOSIT

Not to exceed one-twelfth (1/12) of the annual estimated charge for residential service, or one-sixth (1/6) of the annual estimated charge for all other service. This fee may be changed by applicable statutory provisions.

(N) DISCONNECT FEE

Whenever water service has been previously disconnected for non-payment of sewer bills in conjunction with a water service termination agreement with Cheat View Public Service District, a disconnection fee of \$20.00 shall be charged.

(N) Indicates new

SCHEDULE IISURCHARGE FORMULA TO BE APPLIED IN CASES WHERE SURFACE DRAINAGE IS CONNECTED TO THE UTILITY'S SANITARY SYSTEMAPPLICABILITY

Where the Utility has discovered that a customer's roof drain, downspout, storm sewer or other similar facilities conducting surface water have been connected to the Utility's sewer system, and such customer has failed to take appropriate action, within thirty (30) days of receipt of a demand by the Utility, in accordance with the Rules and Regulations of the Public Service Commission, to eliminate such connection, a surcharge will be imposed upon the customer calculated on the basis of the following formula:

$$S = A \times R \times 0.0006233 \times C$$

S	=	the surcharge in dollars
A	=	the area under roof and/or the area of any other water collection surface connected to the sanitary sewer, in square feet
R	=	the measured monthly rainfall, in inches
0.0006233	=	a conversion factor to change inches of rain x square feet of surface to thousands of gallons of water.
C	=	the utility's approved rate per thousand gallons of metered water usage.

The utility shall not impose the surcharge unless and until the customer has been notified by certified mail, return receipt requested, or by hand delivery, that it has been established by smoke testing, dye testing or onsite inspection that rain or surface water is being introduced into the sanitary sewer system at the customer's location, and that the customer has not acted within thirty (30) days from receipt of such notice to divert the water from the sanitary sewer system.

Said surcharge shall be calculated and imposed for each month that said condition continues to exist. Failure to pay the surcharge and/or correct the situation shall give rise to the possible termination of water service in accordance with the Rules and Regulations of the Public Service Commission of West Virginia.

SCHEDULE IIISURCHARGE FORMULA TO BE APPLIED TO A CUSTOMER PRODUCING
UNUSUAL WASTE

The charge for the treatment of industrial waste will be calculated on the basis of the following formula:

$$CI = VoVi + BoBi + SoSi$$

- Ci = charge to unusual users per year
- Vo = average unit cost of transport and treatment chargeable to volume, in dollars per gallon
- Vi = volume of waste water from unusual users, in cubic feet per year
- Bo = average unit cost of treatment, chargeable to Biochemical Oxygen Demand (BOD) in dollars per year
- Bi = weight of BOD from unusual users, in pounds per year
- So = average unit costs of treatment (including sludge treatment) chargeable to total solids, in dollars per pound
- Si = weight in total solids from unusual users, in pounds per year

When an unusual user is to be served, a preliminary study of its wastes, and the cost of transport and treatment thereof, will be made at the owner's expense. Waste containing materials which, in the judgment of the Utility, should not be introduced into the sewer system need not be handled by it. The results of this preliminary study will be used to determine the feasibility of the proposed sewer service and the charge therefore, based upon the formula set out above.

Thereafter, unusual sewage shall be monitored on a regular basis and at the conclusion of each fiscal year, based on the investigation aforesaid and audit of the Utility records, new cost figures will be calculated for use in the above formula. The cost of establishing the monitoring facilities shall be paid by the unusual user. Based on these audited figures, additional billings covering the past fiscal year will be made for payment by each unusual user, or refund given by the Utility, as the case may be. Such audited figures will then be used for the preliminary billing for the next fiscal year, at the end of which an adjustment will be made as aforesaid.
