Next	14,000 gallons used per quarter	\$ 4.84	per 1,000 gallons
Next	80,000 gallons used per quarter	\$ 4.17	per 1,000 gallons

(I) MINIMUM CHARGE

The total of three monthly bills per quarter shall not be less than \$33.06.

BILLING PROCEDURE

Meters are read quarterly, and bills are issued monthly. The first two monthly bills in each quarter will reflect an estimate based on the individual customer's average usage. These two bills will be rendered at the above tariff rates with the usage blocks adjusted by 1/3 and subject to minimum bills amounts adjusted by 1/3. The bill for the last month of each quarter will be rendered based upon the actual meter reading. A bill will be rendered for total-usage through the above rates including minimum charges, less the two previous estimated billings for that quarter.

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent (10%) will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

(I) Indicates increase

SCHEDULE NO. 1 (Continued)

(I) LEAK ADJUSTMENT

\$0.19 per 1,000 gallons is to be used when the bill reflects unusual consumption which can be attributed to eligible leakage on customer's side of the meter. This rate shall be applied to all such consumption above the customer's historical average usage.

RETURNED CHECK CHARGE

A service charge equal to the actual bank fee assessed to the Utility up to a maximum of \$25.00 will be imposed upon any customer whose check for payment of charges is returned by their bank for insufficient funds.

SECURITY DEPOSIT

A deposit of no more than one-twelfth (1/12) of the annual estimated charge for residential service or one-sixth (1/6) of the annual estimated charge for all other service.
