TAP FEE

The following charge is to be made whenever the utility installs a new tap to serve an applicant.

A tap fee of \$100.00 per each new tap will be charged to customers applying for service before construction is completed adjacent to the customer's premises in connection with a certificate proceeding before the Commission. This pre-construction tap fee will be invalid after the completion of construction adjacent to an applicant's premises that is associated with a certificate proceeding.

A tap fee of \$350.00, or the actual cost of the connection, whichever is lesser, will be charged to all customers who apply for service outside of a certificate proceeding before the Commission for each new tap to the system.

RETURNED CHECK CHARGE

A service charge equal to the actual bank fee assessed to the water utility not to exceed \$25.00 will be imposed upon any customer whose check for payment of charges is returned by the bank due to insufficient funds.

RECONNECTION - \$25.00

To be charged whenever the supply of water is turned off for violations of rules, non-payment of bills, or fraudulent use of water.

(I) INCREMENTAL COSTS

\$4.15 per 1,000 gallons is to be used when the bill reflects unusual consumption which can be attributed to eligible leakage on the customer's side of the meter. This rate shall be applied to all such consumption above the customer's historical usage.

(C) SECURITY DEPOSIT

Not to exceed two-twelfth's (2/12) of the average annual usage of the applicant's specific customer class, or fifty dollars, whichever is greater. This fee may be changed by applicable statutory provisions.
