SEWERAGE AND SEWAGE DISPOSAL SERVICE

in the Town of Hundred, Wetzel County, West Virginia

Filed with THE PUBLIC SERVICE COMMISSION
of
WEST VIRGINIA

Issued June 19, 2018
2nd Request December 19, 2018

Effective for service rendered on and after June 13,
2018, except as otherwise provided herein

Issued by authority of an order of
The Public Service Commission of West Virginia
in Case No. 15-0849-PSD-19A final
November 16, 2015.

Issued by HUNDRED-LITTLETON PUBLIC SERVICE DISTRICT, a public utility

By James V. Kesh

Attorney

Title

RULES AND REGULATIONS

- I. Rules and Regulations for the Government of Sewerage Utilities, adopted by the Public Service Commission of West Virginia, and now in effect, and all amendments thereto and modifications thereof hereafter made by said Commission.

STEP 2 RATES

(Effective after 34 months after Interim Rates became effective)

APPLICABILITY

Applicable within the entire territory served.

AVAILABILITY

Available for general domestic, commercial and industrial service and sale for resale.

(D,C) **RATES** (customers with metered water supply)
\$10.65 per 1,000 gallons

(D,C) **MINIMUM CHARGE**
No bill will be rendered for less than \$31.95 per month

(D,C) **FLAT RATE CHARGE** (customers with non-metered water supply)
Equivalent of 3,500 gallons of water usage, \$37.28 per month

TAP FEE

The following charges are to be made whenever a utility installs a new tap to serve an applicant.

A tap fee of \$150.00 will be charged to customers applying for service before construction is completed adjacent to the customer's premises in connection with a certificate proceeding before the Commission. This pre-construction tap fee will be invalid after the completion of construction adjacent to the applicant's premises that is associated with a certificate proceeding.

A tap fee of \$300.00 will be charged to customers applying for service outside of a certificate proceeding before the Commission for each new tap to the system.

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent (10%) will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

(D) Indicates decrease

(C) Indicates change in text

STEP 2 RATES

(Effective after 34 months after Interim Rates became effective)

RETURNED CHECK CHARGE

A service charge equal to the actual bank fee assessed to the sewer utility up to a maximum of \$25.00 will be imposed upon any customer whose check for payment of charges is returned by the bank due to insufficient funds.

MUNICIPAL EXCISE TAX SURCHARGE

The municipalities listed below, having imposed public utility tax computed on the basis of two percent of the revenues from sewer sales by the Hundred-Littleton Public Service District sewer utility within the corporate limits of such municipalities, shall be billed as a "surcharge" to the customers receiving service within said corporate limits.

The sewer utility is required to collect the utility tax pursuant to West Virginia Code §8-13-5a.

Customers receiving sewer service within the corporate limits of the specified municipality shall pay a surcharge based on the following rates.

Town of Hundred	2%
-----------------	----

LEAK ADJUSTMENT

\$3.53 per 1,000 gallons is to be used when the bill reflects unusual water consumption which can be attributed to eligible leakage on the customer's side of the meter. This rate shall be applied to all such consumption above the customer's historical average usage.

SECURITY DEPOSIT

Not to exceed two-twelfths (2/12) of the average annual usage of the applicant's specific customer class, or fifty dollars, whichever is greater. This fee may be changed by applicable statutory provisions.

STEP 2 RATES

(Effective after 34 months after Interim Rates became effective)

SURFACE OR GROUND WATER SURCHARGE

An additional amount shall be charged where surface or ground water is introduced into the sanitary system where evidence of a violation exists.

Surcharge formula to be applied in cases where surface drainage is connected to the utility's sewer system.

Applicability

Whenever the utility has discovered that a customer's roof drain, downspout, storm sewer or similar facilities conducting surface water have been connected to the utility's sewer system, and such customer has failed to take appropriate action, within thirty (30) days of receipt of a demand by the utility in accordance with the Rules of the Public Service Commission, to eliminate such connection, a surcharge will be imposed upon the customer calculated on the basis of the following formula:

$$S = A \times R \times .0006233 \times C$$

- S = The surcharge in dollars
- A = The area under roof and/or the area of any other water collection surface connected to the sanitary sewer, in square feet
- R = The measured monthly rainfall in inches
- .0006233 = A conversion factor to change inches of rain x square feet of surface to thousands of gallons of water
- C = The utility's approved rate per thousand gallons of metered water usage

The utility should not impose the surcharge unless and until the customer has been notified by mail, return receipt requested, or by hand delivery, that it has been established by smoke testing, dye testing or on-site inspection that rain or surface water is being introduced into the sanitary sewer system at the customer's location, and that the customer has not acted within thirty (30) days from receipt of such notice to divert the water from the sanitary sewer system. Said surcharge shall be calculated and imposed each month that said condition continues to exist. Failure to pay the surcharge and/or correct the situation shall give rise to the possible termination of water service in accordance with the Rules of The Public Service Commission of West Virginia
